

For the quarter ended 30 June 2017

## NZ Funds Managed Portfolio Service Dividend and Growth Portfolio

This fund update was first made publicly available on 28 July 2017

### What is the purpose of this update?

This document tells you how the Dividend and Growth Portfolio has performed and what fees were charged. The document will help you to compare the fund with other funds. New Zealand Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The objective of the Dividend and Growth Portfolio is to grow your investment over the long term by investing in income-orientated assets and growth-orientated assets using an active investment management approach. The anticipated primary investments of the fund are Australasian equities.

Total value of the fund	\$82,608,642
The date the fund started	31 October 2008

### What are the risks of investing?

Risk indicator for the Dividend and Growth Portfolio:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.nzfunds.co.nz/AdviceSolutions/RiskProfile/](http://www.nzfunds.co.nz/AdviceSolutions/RiskProfile/)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 June 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

	Average over past 5 years	Past year
<b>Annual return</b> (after deductions for charges and tax)	13.61%	11.54%
<b>Annual return</b> (after deductions for charges but before tax)	14.62%	12.64%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	19.48%	12.99%

The market index annual return is based on a composite index calculated using the market indices and weightings set out in the Statement of Investment Policy and Objectives (SIPO). Additional information about the market index is available on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).

#### Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2017.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Dividend and Growth Portfolio are charged fund charges. In the year to 31 March 2017 these were:

	% of net asset value
<b>Total fund charges</b>	3.56%
Which are made up of:	
<b>Total management and administration charges</b>	2.98%
Including:	
Manager's basic fee	1.75%
Other management and administration charges	1.23%
<b>Total performance-based fees</b>	0.58%

'Total performance-based fees' is the performance fee charged by NZ Funds based on the performance of the fund. Performance-based fees are subject to market movements and manager performance and the amount of these fees for any given period may materially differ from those disclosed for the year to 31 March 2017.

See the PDS for more information about the basis on which performance-based fees are charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the NZ Funds Managed Portfolio Service for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Liam had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Liam received a return after fund charges were deducted of \$1,154 (that's 11.54% of his initial \$10,000). Liam did not pay any other charges. This gives Liam a total return after tax of \$1,154 for the year.

## What does the fund invest in?

This shows the types of assets that the fund invests in.

### Actual investment mix<sup>2</sup>

Cash and cash equivalents	3.02%
Australasian equities	73.51%

## What does the fund invest in? (continued)

### Top 10 investments

	Name	Percentage of fund net assets	Type	Country	Credit Rating
1	Chorus	15.56%	Australasian equities	New Zealand	
2	Meridian Energy	10.32%	Australasian equities	New Zealand	
3	Rio Tinto PLC ADR	8.62%	International equities	United States of America	
4	BlueScope Steel	8.38%	Australasian equities	Australia	
5	Woodside Petroleum	7.22%	Australasian equities	Australia	
6	Metlifecare	7.11%	Australasian equities	New Zealand	
7	Z Energy	5.50%	Australasian equities	New Zealand	
8	Sky City Entertainment	5.05%	Australasian equities	New Zealand	
9	Spark New Zealand	4.18%	Australasian equities	New Zealand	
10	Trustpower	4.13%	Australasian equities	New Zealand	

The top 10 investments make up 76.07% of the fund.<sup>4</sup>

NZ Funds uses an active investment management approach. As part of this approach, all assets denominated in a foreign currency are initially fully hedged back to the NZ dollar. The fund may then take active foreign currency positions.

## Key personnel

This shows the directors and employees who have the most impact on the investment decisions of the fund.

Name	Current position	Time in current position	Previous or other position	Time in previous or other position
Richard James	Chief Executive, Chair of the Investment Committee and a Director	8 years 4 months	Chief Operating Officer, New Zealand Funds Management Limited	6 years 1 month

## Further information

---

You can also obtain this information, the PDS for the NZ Funds Managed Portfolio Service, and some additional information from the offer register at [www.companiesoffice.govt.nz/disclose/](http://www.companiesoffice.govt.nz/disclose/).

## Notes

1. The bar graph shows fund returns after the deduction of fees and tax; however, the market index returns are shown before any fees or tax are deducted.
2. NZ Funds uses derivatives as part of its active investment management approach. The use of derivatives can result in the total economic exposure of the fund exceeding 100% which means the fund is leveraged. Where economic exposure exceeds 100%, the actual investment mix pie graph and the target investment mix table have been scaled to 100%. Without scaling, the total economic exposure of the fund, as shown in the actual investment mix and the target investment mix, would be 114.66% and 115.00% respectively. For more information on economic exposure, see the NZ Funds Managed Portfolio Service 'Other Material Information' document on the offer register at [www.companiesoffice.govt.nz/disclose/](http://www.companiesoffice.govt.nz/disclose/).
3. The fund is able to invest in a wide range of assets and does not have a target investment mix. For the purposes of this update, the target investment mix has been compiled using the actual investment mix. NZ Funds is an active investment manager and as a result the actual investment mix and target investment mix will change in the future and changes may be material.
4. The top 10 investments have been compiled using a balance sheet approach. This differs from the approach used in compiling the actual and target investment mixes, which include the impact of derivatives.
