### What are the risks of investing?

Risk indicator for the NZ Funds WealthBuilder LifeCycle - age 65<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.nzfunds.co.nz/AdviceSolutions/RiskProfile/](http://www.nzfunds.co.nz/AdviceSolutions/RiskProfile/)

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

The risk indicator is not a guarantee of a investment option's future performance. The risk indicator is based on the returns data for the five years to 30 September 2020<sup>1</sup>. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this investment option.

### How has the investment option performed?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	not applicable
<b>Annual return</b> (after deductions for charges but before tax)	not applicable
<b>Market index annual return</b> (reflects no deduction for charges and tax)	6.26%

The market index annual return is based on a composite index calculated using the market indices and weightings set out in the Statement of Investment Policy and Objectives (SIPO). Additional information about the market index is available on the offer register at [www.companiesoffice.govt.nz/disclose/](http://www.companiesoffice.govt.nz/disclose/).

### What fees are investors charged?

Investors in the NZ Funds WealthBuilder LifeCycle - age 65 are charged fund charges. These are estimated to be:

	% of net asset value
<b>Total fund charges (estimated)<sup>2</sup></b>	1.42%
Which are made up of:	
<b>Total management and administration charges (estimated)</b>	1.39%
Including:	
Manager's basic fee	1.13%
Other management and administration charges	0.26%
<b>Total performance-based fees (estimated)</b>	0.03%
<b>Other charges</b>	<b>\$ amount per investor</b>
Administration fee <sup>3</sup>	\$36

See the PDS for NZ Funds WealthBuilder for more information about the basis on which performance fees are charged.

Investors are not currently charged individual action fees (for example, withdrawing from or switching funds). See the PDS for more information about fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Liam had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Liam received a return after fund charges were deducted of \$626 (that's 6.26%<sup>4</sup> of his initial \$10,000). Liam also paid \$36 in other charges. This gives Liam a total return after tax of \$590 for the year.

## Notes

---

- 1 To calculate the risk indicator, a combination of actual returns and market index returns have been used as the investment option does not have a full five year return history. Market index returns were used for the period prior to 27 February 2020. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the investment option.
- 2 Historical fee information for the most recent scheme year is not available. The total fund charges shown are based on our best estimate of the fees and costs that will be charged including fees and costs payable in respect of the underlying funds in which the investment option invests (including performance fees). For more information on the basis of estimates, see the PDS and the NZ Funds WealthBuilder 'Other Material Information' document on the offer register at [www.companiesoffice.govt.nz/disclose](http://www.companiesoffice.govt.nz/disclose).
- 3 For investors aged 18 or over, NZ Funds charges an administration fee of \$3 per month.
- 4 This calculation is based on the market index return for the past year as there is no past year actual return for the investment option.
- 5 The target investment mix is anticipated only and the Strategy's actual asset allocation is expected to vary significantly over the course of an economic cycle.
- 6 The top 10 investments have been compiled using a balance sheet approach. This differs from the approach used in compiling the actual and target investment mixes, which include the impact of derivatives.
